

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-9 (cancelled)

Claim 10 (currently amended) A method ~~as in claim 9, further~~ of processing signals for a communication system, comprising the steps of:

receiving an input signal from at least one of a plurality of antennas;

measuring the input signal;

producing an output signal corresponding to the measured input signal;

comparing the output signal to a first reference signal;

producing a first control signal in response to the step of comparing when the output signal has a value greater than a value of the first reference signal;

comparing the output signal to a second reference signal; and

producing a second control signal in response to the step of comparing when the output signal has a value greater than a value of the second reference signal.

Claim 11 (original) A method as in claim 10, further comprising the step of producing a third control signal in response to the step of comparing when the output signal has a value between the value of the first reference signal and the value of the second reference signal.

Claim 12 (original) A method as in claim 10, further comprising the steps of:
producing a plurality of channel estimates in response to one of the first control signal and the second control signal; and

Appl.No.: 10/808,621
Amendment dated July 6, 2005
Response to Office Action mailed April 6, 2005

producing less than the plurality of channel estimates in response to the other of the first control signal and the second control signal.

Claims 13-24 (cancelled)
